Have Your Own Kite Day

Here's a fun activity for you to create your own kite!

What you will need

- Cereal box (or any thin, sturdy cardboard)
- Scissors
- Markers, crayons, or paints
- String or yarn
- Tape or glue

How to make your kite

1. Draw a big diamond shape on your cereal box (or thin, sturdy cardboard)—use a ruler if you need to. This will be the kite's main body.
2. Carefully cut along the lines of the diamond kite shape. Ask a grown-up for help if needed!
3. Use bright colors to decorate your kite—you can even add stickers or drawings to make your kite look amazing!
4. Cut some string or yarn to create a tail for your kite—the length of this string will decide how high the kite can fly. Tape or glue this tail to the bottom of the kite!
5. If you're indoors, pretend to fly the kite! Or, if it's a nice day outside, take your kite outside and watch it soar in the wind!

Drawing Activity: The Four Seasons

Below are four boxes—one for each season. Draw a picture in each box to represent the season. For example, you could draw snowflakes for winter.

Then write a few words about how that season makes you feel under your drawings. For example, “Spring makes me happy because of the flowers!”

Spring

Summer

Fall

Winter

Stitch Your Own Kite!

Let's learn some simple sewing skills while making a mini kite—just like in the book!

What you will need

- Needle and thread
- Ribbon or yarn
- 2 small sticks or straws

How to make your mini kite

1. Draw two similar size diamond shapes in your fabric, then cut them out.
2. Place the two fabric pieces together and ask your adult to help you stitch them together with your needle and thread. Leave a little opening for the sticks!
3. Slide two small sticks or straws inside to help the kite stand up. Then close the opening by sewing it together with your sticks inside.
4. Tie ribbon or yarn to the bottom to make your kite tail.
